

MATT SCOTTON

EXPERIENCE

SPORTS PRODUCER

Q13 FOX / AUGUST 2018 - PRESENT

During football season I produce a weekly 30-minute show focusing on the Washington Huskies ("Talkin' Huskies"), our Sunday night sports program ("Q It Up Sports"), as well as help out with our Seattle Seahawks programming ("Seahawks Gameday") in addition to the nightly sportscasts. During the rest of the year my duties include producing the nightly sportscast, various 30-minute sports specials revolving around teams in the greater Seattle area, as well as pre and post game shows for some of our local sports teams that play on Q13 FOX and JOEtv.

SPORTS PRODUCER & PHOTOGRAPHER

KVAL NEWS / SEPTEMBER 2015 - AUGUST 2018

I managed most videography shooting for the sports department including games ranging from high school to college, regular team availabilities, and feature stories. I also produced our Friday night high school football and basketball highlights show ("High School Gameday") and our daily 30-minute sports program ("Oregon's Sports Report" - on call).

PRODUCER FOR INSIDE THE PAC

KVAL NEWS / AUGUST 2016 - AUGUST 2018

KVAL's flagship sports program that aired once a week recapping the previous week's action. My responsibilities included deciding what talking points the show will focus on, editing all of the video, preparing all of the segments, and prepping both anchors.

PRODUCER FOR AFTER THE WHISTLE

KVAL NEWS / FEBRUARY 2017 - AUGUST 2018

A one of its kind webcast in the Willamette Valley that focused on Oregon and Oregon State. I managed the show from inside the booth to make sure the webcast ran smoothly from start to finish. I also moderated "Booth Review", where the anchors debated various topics surrounding the Ducks and the Beavers.

BOARD OPERATOR

CUMULUS MEDIA / JUNE 2015 - DECEMBER 2015

Ran commercial breaks in the studio for events ranging from Minor League Baseball to Oregon Men's Basketball games.

REPORTER, ANCHOR, & PRODUCER

OREGON NEWS / MARCH 2015 - JUNE 2015

Worked on a 30 minute student-run newscast which aired on public access television as part of my capstone during my time at the University of Oregon. My responsibilities varied every week from turning PKGs, producing the newscast and daily updates, to anchoring sports.
